PROCEDURAL 6EP14

First name	
Last name	λ-
School	
Class	
	· ·
Date of birth	
Date of test	052014
Total score	(maximum 35)

1 Add 76 and 34

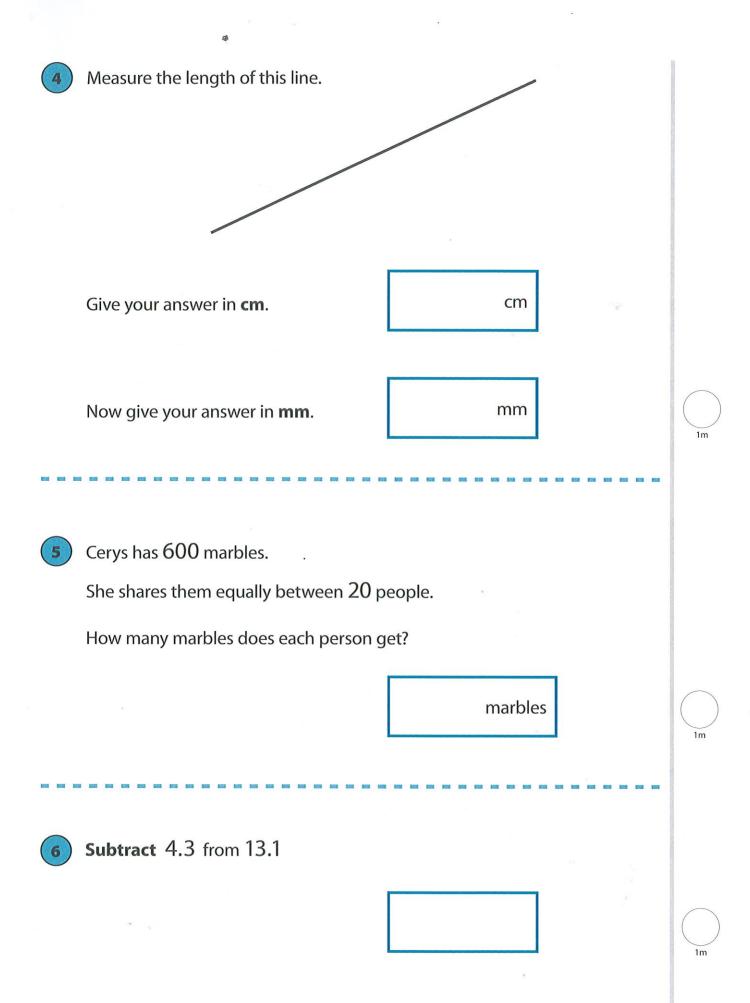

3 Circle the number where the 4 stands for 4 tens.

Now tick (✓) the number where the 4 stands for **4 thousands**.

7

Distances in miles by road between places in Wales

	Bangor	Carmarthen	Swansea	Rhyl
Bangor		133	159	31
Carmarthen	133		28	136
Swansea	159	28	•	173
Rhyl	31	136	173	

Which two places are the greatest distance from each other?

and

Mr Jones drives from Carmarthen to Swansea.

Then he drives from **Swansea** to **Bangor**.

How many miles does he drive altogether?

miles

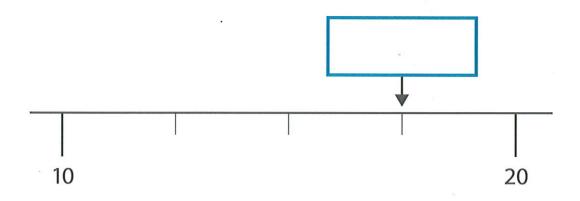

Complete the table using the 24-hour clock.

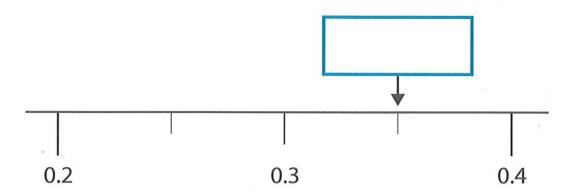

Half past six	Morning	06:30
Quarter past ten	Morning	
Half past four	Afternoon	
Quarter to eight	Evening	

2m

What numbers are the arrows pointing to?

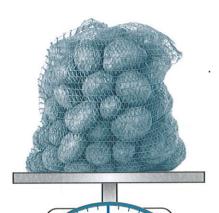

What is the area of this rectangle?

7cm

cm²

1m

(12)

kg

The bag of potatoes weighs

kg

In kilograms and grams, this is

kg and

1m

13 A teacher says:

Think of a number.

Multiply it by 2,

then add 6

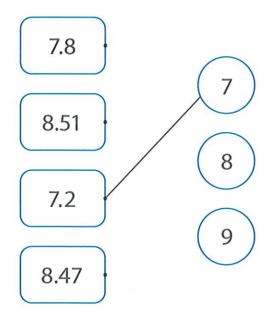

Ellie's answer is 16

What number was Ellie thinking of?

14 Round each decimal to its nearest whole number.

One is done for you.

Complete the table.

Temperatures in Swansea and Sydney one day last December

- 1	Swansea	Sydney	Difference in temperatures
Daytime temperature	−1°C	25°C	°C
Night-time temperature	°C	18°C	21°C

		/
10.0	1m
